Narrative:
CR No: 210004062-001 Written By: RCDREHMERA (00015) Date: 05/06/2021 11:23 AM
<p>NATURE: While assigned as school liaison officers, Deputy Haglund and I were working a Rochester Community Schools School Board meeting at 501 W. University.</p> <p>DETAILS: It was an evening School Board meeting with school board Members, administrators and members of the public present at the meeting. Deputy Haglund and I alternating sitting in the room where the meeting was being held. Throughout the meeting, members of the public are allotted three minutes to speak. At the beginning of the meeting, the Board listed rules/ policies that they asked the public to follow which included keeping masks on.</p> <p>Several members of the public took their three minutes of time to express there dissatisfaction</p>

with how the District was handling Covid 19 quarantined kids along with issues with the Caring Steps building. At one point a member of the public, Andrew Weaver, came up to speak reference his dissatisfaction with the district and pulled his mask off while speaking. The board president, Kristin Bull, asked Mr. Weaver to please put his mask back on. Mr. Weaver argued stating that at a prior meeting a district employee was allowed to take her mask off. Mr. Weaver was arguing double standards as Mrs. Bull continued to asked that he "Please" put his mask back on.

I was made aware of Mr. Weaver prior to the meeting due to multiple emails he has sent to the Board of Education including the superintendent, Robert Shaner. Mr. Weaver also has a Facebook advocacy page for members of the public that are also dissatisfied with the District. Several of the emails and post had been forwarded to the police department prior to the meeting. The Districts lawyer has also sent Mr. Weaver Cease and Desist letters for allegedly making false allegations and insults.

Mr. Weaver didn't pull his mask up as asked and was speaking over Mrs. Bull who was asking him to put it back on. It was at this point that the board called for a recess. Deputy Haglund and I went over and spoke to Mr. Weaver who immediately put his mask on. Mr. Weaver apologized to us and was not argumentative. As he headed back to his seat, the Board called for an adjournment. The members of the public became vocal expressing their displeasure for the meeting being adjourned and not being afforded the opportunity to speak.

The Board left the room yet Dr. Shaner stayed. Mr. Weaver yelled to him about the mask requirement as he got closer, entering into the area where the Board Members sitting. I approached Mr. Weaver and stated, "it's not worth it." Mr. Weaver replied, "I'm poking him." Mr. Weaver then went back into the area where the members of the public sit. One member of the public stood at the podium and gave her three minute speech to be heard even though the Board had left the room. A short time later, I was instructed that everyone had to leave the building. I advised the members of the public that they had to leave the building. They all respectfully left the building, including Mr. Weaver. Some of them even apologized to us for being put in that position.

ADDITIONAL: Emails and post that I received from the District are attached to this report.

STATUS: Closed.

Andrew Weaver complains that Allen Schneck got more than 3 minutes.

AW: 3 minutes is only 3 minutes for some

"Here is everyone that spoke at the April 26th BOE work session that went over the 3-minute rule. Not only does the gentleman that is praising the District and BOE not get interrupted with being told to wrap it up or his time is up, but he also gets a response from BOE President Kristin Bull."

Some of you may have seen the video where Joshua Raymond was told he had to keep his mask on while a district employee was allowed to remove their make.

Here is another video from the April 26th work session that shows the BOE and District treat those that blindly follow them differently they anyone that questions them.

While they will have all kinds of reason to explain why they disregard anything I have to say, I honestly do not know how members of our community could be okay with the treatment the other speakers got that night.

The video is a little long but is worth the time.

I find it unreasonable to believe Kristen's statement suggesting the district follows the rules. ...
Kristin admits she doesn't know what the rules are so how would she know if they are being followed or not?

Andrew Weaver ...

Maybe the district does listen to the community; it appears they updated their logo. Just joking. I did it; I would hate for them to spend more money to have their lawyer send me another letter.

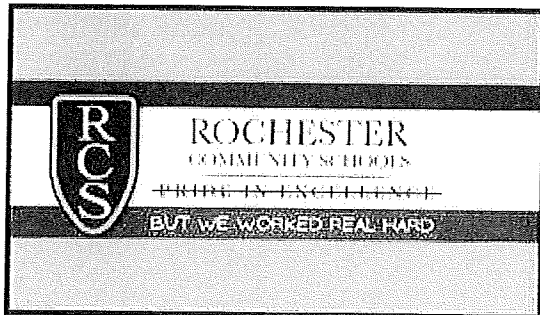

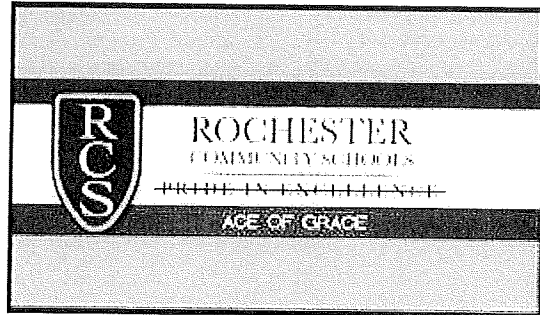

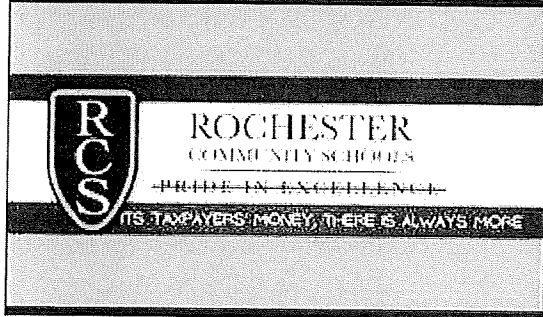

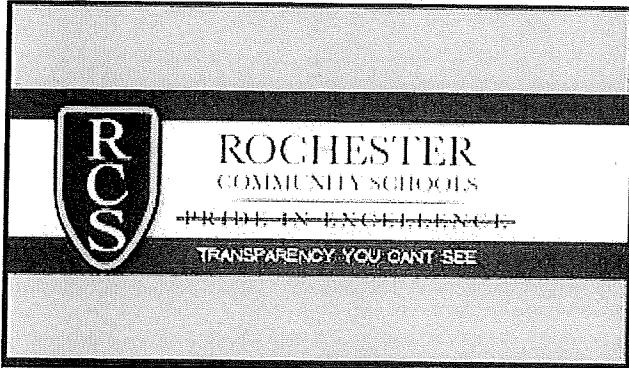

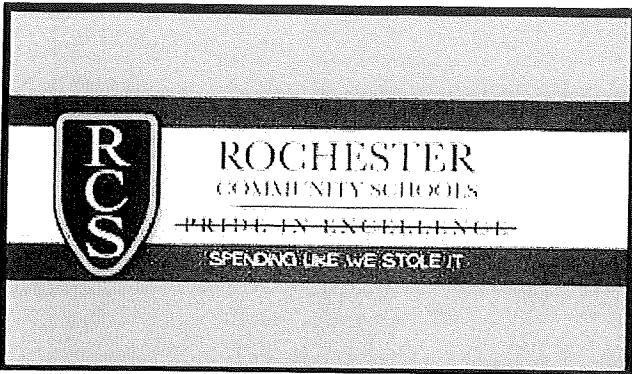

On a side note. It should work as a nice cover photo.

Update: I added a few more based on feedback from others. Okay a few more.

Rochester Community Schools, MI has used the phrase "Pride in Excellence" on their logo.

Over the past year, it has become clear that is not a standard the district is living up to, so it seems a change is needed.

Here are a couple of suggestions for new logos for the District (free of charge).

Rochester Community Schools, MI has continued to disregard the facts and community as they prioritize the pet projects of the superintendent and their political agenda.

While the BDE is doing everything they can to limit the community's voice in hopes that the larger community does not become aware of the actions they have taken, more parents are speaking up.

Here are my statements at the April 26th work session.

During the Rochester Community Schools MI BOE work session on April 26th, it became clear that there is one set of rules for those that agree with the district and another for those that disagree with them.

What might be more concerning is to hear BOE President Kristin Bull say she did not know how to answer Joshua Raymond's question. Kristin has repeatedly stated that the district follows guidelines and orders but does not even know what they are.

While Kristin is not eligible for recall for a few more months, the four eligible trustees have voted and supported all of Kristin's actions.

Oakland County also used its CARES Act dollars to provide direct financial assistance to every school district. Our K-12 school districts and public school academies received over \$27 million from the county to cover COVID-related expenses. And yet, we didn't return to in-person school until all teachers were Vax'd. Where did all that money go?

Hey Kristin,

It was interesting to learn that after a year in which you and the other BOE Trustees were responsible for ensuring the district was following safety guidelines regarding COVID, you do not know what the mask rules are.

During the meeting on the 26th, when a community member cited a policy and respectfully asked to remove his mask when speaking, you can be heard saying I don't know what to say to this (see attached video). You ultimately told him that he needed to keep his mask on, which he did. The issue is that you and the rest of the BOE allowed a district employee to take her mask off when speaking (see attached video).

This shows that you, your peers, and the Superintendent have never actually taken these guidelines seriously. Had Mr. Raymond just walked up and lowered his mask and made his comments, you would have said nothing, just as you did with the employee and a gentleman at the meeting on April 12th (see second attached video). It is clear that the Superintendent & BOE are cherry-picking the guidelines that fit your priorities, which we all know now, are not the community's priorities.

It is sad to think that members of our Government find this to be acceptable behavior and stand with the superintendent & BOE. Kristin made sure to mention a number of you as supporters; it would be great if you all made public comments so that voters can make informed decisions in the next election.

Thanks,

Andrew Weaver
