My kids are both in the dual language. They have loved it every second of it. You can see the growth and the translation between languages. It's important because even I wasn't able to learn much with my parent . I love Spanish and seeing my kids learn it makes me happy

THOUGHTS Opportunities

I want them to be able to read, write and speak in both languages. It opens more doors for them and they can connect with more people, even family members, and not lose their roots.

4.3 ★★★★★ (13 👤)

I like dual language program because at this age is easy it is easy to get other language. It is very important to make bilingual people in this country full of immigrants. We have to be proud of our native language as well as English.

4.3 ★★★★★ (12 👤)

High behaviors are not taken into consideration in the dual language program. Adding more students to increase the numbers is not the solution. No teacher can effectively teach their students when there are constant, high behaviors.
